Case studies in O.P.D.& I.P.D., Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning, Interdepartmental, Interdisciplinary training, 72 Learning Lesions
2(PO)	Recognize the scope & limitation of homoeopathy & to apply the Homoeopathic principals for curative, prophylactic, promotive, palliative, & rehabilitative primary health care for the benefit of the individual & community.	Hospital visits, clinical visits, case studies in O.P.D. & I.P.D.
3(PO)	Discern the relevance of other systems of medical practice for rational use of cross referral & life saving measures, so as to address clinical emergencies.	Case studies in O.P.D.& I.P.D., Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning, Interdepartmental, Interdisciplinary training, 72 Learning Lesions
4(PO)	Develop capacity of clinical thinking & research aptitude as required for evidence based homoeopathic practice.	Case studies in O.P.D.& I.P.D., attending Lectures, Clinics & Practicals. Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning,

		Interdepartmental, Interdisciplinary training, 72 Learning Lesions.
5(PO)	Demonstrate aptitude for lifelong learning & develop competencies as & when conditions of practice demand.	Case studies in O.P.D.& I.P.D., attending Lectures, Clinics & Practicals. Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning, Interdepartmental, Interdisciplinary training, 72 Learning Lesions.
6(PO)	Be competent enough to practice homoeopathy as per medical ethics & professionalism.	Hospital visits, clinical visits, case studies in O.P.D. & I.P.D.
7(PO)	Develop the necessary communication skills to work as a team member in various healthcare setting & contribute towards the larger goals of national policies such as school health, community health, environmental conservation etc.	Case studies in O.P.D.& I.P.D., attending Lectures, Clinics & Practicals. Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning, Interdepartmental, Interdisciplinary training, 72 Learning Lesions.
8(PO)	To prepare competent Homoeopathic physician who is capable of functioning independently & effectively in Rural & Urban areas.	Case studies in O.P.D.& I.P.D., Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning, Interdepartmental, Interdisciplinary training, 72 Learning Lesions
9(PO)	To develop ability to apply the fundamental principles of Homoeopathy, its vital principles & its symptomatology.	Hospital visits, clinical visits, case studies in O.P.D. & I.P.D.
10(PO)	He/ She should get skills of analysis – Evaluation, correlation between theory of chronic diseases & its patho-physiological process.	Practical, Seminars clinical visits, case studies in O.P.D. & I.P.D.
11(PO)	He / She should be able to know various diseases with miasmatic manifestations.	Case studies in O.P.D. & I.P.D., Internship, health checkup camp, workshop, clinical teaching, CPR Modules
12(PO)	He should able to do proper evaluation of symptoms in chronological order with proper selection of characteristic symptoms, & should able to prepare proper Reportorial Totality.	Internship, health checkup camp, workshop, clinical teaching, CPR Modules

13(PSO)	After completion of program the knowledge, skills & attitude gathered in this pattern will keep him constantly aware of his objectives & his role as a Homoeopathic Physician. The integration of above will keep him up to date about all fresh scientific developments & inculcating values of continuous medical education	Case studies in O.P.D. & I.P.D., Internship, health checkup camp, workshop, clinical teaching, CPR Modules
14(PSO)	Understanding the concepts of Homoeopathic pharmacy, drugpreparation , drug proving & Homoeopathic MateriaMedica with its utility in treatment.	Workshop, Laboratory, Pharmacy field visit at Homoeopathic Pharmacy Ghaziabad, New Delhi.
15(PSO)	Understanding Homoeopathic concepts & its utility in treating man as a whole with humility.	Health checkup camp, workshop, clinical teaching, CPR Modules, Seminar.
16(PSO)	Understanding the concept of Organon of medicine & its applicability in Homoeopathic practice.	Case studies in O.P.D.& I.P.D., attending Lectures, Clinics & Practicals. Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning,
17(PSO)	Understanding & application of different software of repertories.	Case taking, Making proper Analysis & evaluation of a case, Getting proper knowledge of different software of Homoeopathic Repertories during Clinics / Practicals.
18(PSO)	Understanding relationship of three basic pillars of Homoeopathy – Organon, MateriaMedica& Repertory.	Case studies in O.P.D.& I.P.D., attending Lectures, Clinics & Practicals. Clinical Visits, Health checkup camps, Seminars, CPR Modules, Knee Joint pain Modules, Experiential learning,
