उपरोक्त विषयानुसार, अनंतराव कणसे होमिओपॅथिक वैद्यकीय महाविद्यालय व रुग्णालय आळेफाटा यांच्या वतीने विविध परिसरातील रुग्णांना दर्जेदार वैद्यकीय सेवा पुरवित आहे. आज भारतामध्ये हृदय विकार व उच्च रक्तदाब अशा रुग्णांची संख्या दिवसेंदिवस वाढत आहे. कारण आजची बदलती जीवनशैली, अवेळी खाण्याची सवय, बैठे काम, व्यायामाचा अभाव, फास्ट फूड, कौटुंबिक व सामाजिक ताणतणाव, दैनंदिन धावपळ अशा प्रकारची विविध कारणे त्यास जबाबदार धरता येतील.

त्यामुळे अगदी कमी वयातही हृदय विकार होणे, उच्च रक्तदाब होणे इ. आजार होण्याचा संभव असतो. त्यामुळे कुलस्वामी मेडिकल फाऊंडेशन व अनंतराव कणसे होमिओपॅथिक मेडिकल कॉलेज व हॉस्पिटल यांच्या संयुक्त विद्यमाने विशेष उच्च रक्तदाब तपासणी सर्वेक्षण मोहीम राबविण्याचे आयोजित केले आहे.

विषय :- उच्च रक्तदाब तपासणी सर्वेक्षण....
महोदय,

उपरोक्त विषयानुसार, अनंतराव कणसे होमिओपॅथिक वैद्यकीय महाविद्यालय व रुग्णालय आळेफाटा यांच्या वतीने विविध परिसरातील रुग्णांना दर्जेदार वैद्यकीय सेवा पुरवित आहे. आज भारतामध्ये हृदय विकार व उच्च रक्तदाब अशा रुग्णांची संख्या दिवसेंदिवस वाढत आहे. कारण आजची बदलती जीवनशैली, अवेळी खाण्याची सवय, बैठे काम, व्यायामाचा अभाव, फास्ट फूड, कौटुंबिक व सामाजिक ताणतणाव, दैनंदिन धावपळ अशा प्रकारची विविध कारणे त्यास जबाबदार धरता येतील.

त्यामुळे अगदी कमी वयातही हृदय विकार होणे, उच्च रक्तदाब होणे इ. आजार होण्याचा संभव असतो. त्यामुळे कुलस्वामी मेडिकल फाऊंडेशन व अनंतराव कणसे होमिओपॅथिक मेडिकल कॉलेज व हॉस्पिटल यांच्या संयुक्त विद्यमाने राष्ट्रीय सेवा योजने अंतर्गत विशेष उच्च रक्तदाब तपासणी सर्वेक्षण मोहीम राबविण्याचे आयोजित केले आहे.

तरी ही सर्वेक्षण यशस्वीरित्या पार पडावे या कार्यासाठी मा. सरपंच, सदस्य, ग्रामपंचायत व गावातील सर्व नागरिकांचे सहकार्य लाभाने अशी विनंती.

विषय :- उच्च रक्तदाब तपासणी सर्वेक्षण....

महोदय,

उपरोक्त विषयानुसार, अनंतराव कणसे होमिओपॅथिक वैद्यकीय महाविद्यालय व रुग्णालय आळेफाटा यांच्या वतीने विविध परिसरातील रुग्णांना दर्जेदार वैद्यकीय सेवा पुरवित आहे. आज भारतामध्ये हृदय विकार व उच्च रक्तदाब अशा रुग्णांची संख्या दिवसेंदिवस वाढत आहे. कारण आजची बदलती जीवनशैली, अवेळी खाण्याची सवय, बैठे काम, व्यायामाचा अभाव, फास्ट फूड, कौटुंबिक व सामाजिक ताणतणाव, दैनंदिन धावपळ अशा प्रकारची विविध कारणे त्यास जबाबदार धरता येतील.

त्यामुळे अगदी कमी वयातही हृदय विकार होणे, उच्च रक्तदाब होणे इ. आजार होण्याचा संभव असतो. त्यामुळे कुलस्वामी मेडिकल फाऊंडेशन व अनंतराव कणसे होमिओपॅथिक मेडिकल कॉलेज व हॉस्पिटल यांच्या संयुक्त विद्यमाने विशेष उच्च रक्तदाब तपासणी सर्वेक्षण मोहीम राबविण्याचे आयोजित केले आहे.

तरी ही सर्वेक्षण यशस्वीरित्या पार पडावी या कार्यासाठी मा. सरपंच, सदस्य, ग्रामपंचायत व गावातील सर्व नागरिकांचे सहकार्य लाभाने अशी विनंती.

विषय - जनता सहकारी बँक, ओतूर शाखेस अडचणीक अल्बम मिळणेबाबत

वि. वि.

सध्या COVID 19 मुळे निर्माण झालेल्या परिस्थितीत इतर सेवांसोबत बँकिंग सेवा हि सुद्धा अत्यावश्यक आहे.

जनता सहकारी बँक ओतूर शाखा हि ग्राहकांच्या सेवेमध्ये गेल्या ३७ वर्षांपासून कार्यरत आहे. ओतूर शाखा हि जुनी असल्या कारणामुळे येथे ग्राहक वर्ग अधिक प्रमाणात दिसून येतो. शिवाय ग्रामीण भागात COVID 19 चे प्रमाण कमी असल्या कारणामुळे शाखेमध्ये ग्राहकांचा ओघ अधिक प्रमाणात आहे.

सद्य परिस्थिती लक्षात घेता शाखेतील एकूण १६ कर्मचारी वृन्दांकारिता आपल्या संस्थेमार्फत अडचणीक अल्बम मिळावा जेणेकरून आम्ही ग्राहकांना अधिक चांगली व काळजीपूर्वक सुविधा देऊ शकू.

तरी एकूण परिस्थितीचा विचार करून शाखेतील कर्मचाऱ्यांना अडचणीक अल्बमचे कीट मिळावे. हि विनंती, कळावे.

District- Pune.

Dr. Snehal Patil, NSS Program Officer reached the Anganwadi at Rajuri village by 10:00 AM.

The inauguration programme started by 10:40 AM. It was carried out by the Head of Anganwadi- Ms. Hande and the other teachers that worked there. The programme started with a small introduction given by Pranjali Jawalkar where she explained the need for nutrition and various ways of implementing healthy living in their lifestyle. It was followed by “Poshan Kuposhan”, an interactive Q and A session, where the existing knowledge about the basics of food and nutrition was assessed in children. “Poshan aur Padhai” linked the theoretical knowledge with its scientific and fact-based implementation in life. To make the session more interactive for the children, students designed and presented the “Indradhanush Thali” and “Ganesh Thali”. These were two model plates created to signify and educate the children on what a healthy diet should contain. The Indradhanush Thali used the 7 colours of the rainbow to relate it with the vibrant colours of food items and asked the children to distinguish food items based on the colours, thus engaging their visuals and senses. The items from the Thali, such as fruits and a sweet dish was also distributed amongst the children, parents and people of Anganwadi as the programme progressed. Some basic Yoga-asanas were demonstrated after this. The camp, then, proceeded with female-centric topics of Menstruation, Breast Feeding and Diseases caused through use of impure water. All the programmes were interactive and made an abundant use of models and graphical representations in order to make the information simple and legible for those present.

The screening team performed full body check-ups and took a thorough case of all adults and children present and dispensed medicine required accordingly.

2nd Location: - Vidya Vikas Mandir School and Junior College, Rajuri.

A team of students left for the high school at around 1:00 PM. They reached the location at around 1:30 along with the NSS Program Officer, D. Snehal Patil. The programme here was catered towards girls from the standard 5th to 10th, an approximate of 90 children. A hall was generously arranged by Mr. Vishal Awte, a worker at the school. The programme proceeded in the same chronology as in Anganwadi. A “Poshan Jatra” was organized by the students in the form of stalls where the teachers and the girls could interact with models and have a better understanding of food and a balanced diet. There was more emphasis on the screening done specifically for the prevalence of anaemia in young girls and guiding them towards the proper diet and regimen required for their growth. A detailed session was done on “Menstruation” which covered the basics, myths and reality and the way periods should be helped. This was really well received and a new light was shed on the understanding of such topics in the rural areas and the knowledge that students do possess. The programme was successful due to the dutiful co-operation and discipline maintained by Mrs. Jayshree Santosh Chavan, Mrs. Deepika Jay Rokde who taught Marathi/Science and Drawing/Marathi respectively to classes from 7th and 8th as well as Mrs. Rupali Rahul Lamte who taught the 10th standard.

The visit concluded at 2:00 and students returned to college.

3rd Location: - Khaparwadi Anganwadi Seva Yojna, Khaparwadi.

Dr. Sandhya Thorat, Head Of Department, Community Medicine reached the anganwadi at 11:00 AM alongwith a team of approximately 35 students. The screening for kids was put to work as soon as they reached camp as it was the priority activity. A head-to-toe checkup was done for the kids and the data was used to determine the ranks of “Swasthya Balak Spardha’. This was done as a reward based reinforcement for the kids to eat healthier. The major cases that were found were of Coryza, Cold, tonsilitis and nasal polyps along with a deficiency in iron and calcium. The programme started with a small introduction given where the need for nutrition and various ways of implementing healthy living in their lifestyle was explained. It was followed by “Poshan Kuposhan”, an interactive Q and A session, where the existing knowledge about the basics of food and nutrition was assessed in children. “Poshan aur Padhai” linked the theoretical knowledge with its scientific and fact-based implementation in life. To make the session more interactive for the children, students designed and presented the “Indradhanush Thali” and “Ganesh Thali”. These were two model plates created to signify and educate the children on what a healthy diet should contain. The Indradhanush Thali used the 7 colours of the rainbow to relate it with the vibrant colours of food items and asked the children to distinguish food items based on the colours, thus engaging their visuals and senses. The items from the Thali, such as fruits and a sweet dish was also distributed amongst the children, parents and people of Anganwadi as the programme progressed. Some basic Yoga-asanas were demonstrated after this. The camp, then, proceeded with female-centric topics of Menstruation, Breast Feeding and Diseases caused through use of impure water.

All the programmes were interactive and made an abundant use of models and graphical representations in order to make the information simple and legible for those present.

The programme concluded at 3:00 PM and students returned to the college.
