Policy Letter to identify Advance learners & slow performers:

After 1st year admission:

NEET MARKS

Interview is conducted after considering NEET marks to assess the in-depth knowledge of Chemistry, Physics & Biology with communication skills.

IInd Year onwards;

Students who scores marks Less than or equal to 50% are considered as Slow learners & those who scores more than or equal to 70% are considered as Advanced learners.

S.O.P. of slow learner & fast learner is as follows.

1. Our institution follows measurable criteria to identify **slow performers**. For this Institute conducts **30 marks tutorials** on every Saturday at 9 a.m. to 10 a.m. Students are writing long answer questions & short notes of all years. Institute also conducts **Term end exams & Preliminary exams** at the end of each term for the assessment of slow performers & Advance learners.
2. Our institute follows measurable criteria to identify **advance learners**. According to it, those students who score more than **70% marks** in the Term End & Preliminary exams are called advance learners. We select these students & allot **various seminars** in the batch to give guidelines to other students. They are also requested to conduct **Practical's/Clinics** in the classes. All these activities are conducted under guidelines of respective subject teacher & H.O.D's. These advance learners are also asked to give guidelines regarding **paper writing**. In this way institution encourages advance learners in the teaching activities so that it helps to increase their own **self confidence**.
3. Institute also identifies **slow performers**. Students who score less than **50% marks** are called slow performers by our institute. Institute provides special attention at slow performers. Special guidelines are given by each subject teachers/H.O.D's to those students

4. who get fail first time in M.U.H.S exams. They are asked **to write answers** of various questions & are asked to maintain record of their answer books. These answers are checked by respective teachers regularly. These students are also asked to **write tutorials** at the end of each week. **Practical's/Clinics** are conducted on regular basis for such students. They are also given guidelines regarding their **body language & their vocabulary** so that it helps them to face orals confidently.
5. Institute follows proper protocol to measure student achievement.
For this all teachers are maintaining proper record of fast learners & slow performers in their respective departments. Outcome records of this program are very useful for slow performers.
6. Our institute also organizes special protocols to measure students' achievements.
We organize Induction program every year for 1st year fresh students. In this program we introduce our entire faculty to students. We offer scholarship to these new students, on the basis of their NEET marks. This **scholarship is given in the form of either valuable useful instruments like Sphygmomanometer, Stethoscope etc or books.**
All supporting documents like Tutorial planning, Tutorial results, Term end exam results, Preliminary exam results, slow learning & advance learning registers of few departments, scholarship offered to advance learner etc.

Midterm exam

Slw termen = 10

Advance termen = 83

Slw termen are asked to write the question paper 2 times

Report of Activity for slow learners:-

- 1) Students are asked to write the answers 2 times.
- 2) Asked to perform the practical 2 times in presence of assistant lecturer of dept & advance learners.
- 3) Special orals / viva are conducted by assistant professor at the department.
- 4) Special guidelines regarding to study methods are given by advance learners.
