Dear Sir/ Madam

For the purpose of promoting interest and aptitude for research among homoeopathic undergraduates, the Council provides financial support through **Short Term Studentship in Homoeopathy**. The main objective of this program is to provide an opportunity to undergraduate homoeopathic students to familiarize themselves with research methodology and techniques by being associated for a short duration with their seniors on ongoing research programs or by undertaking independent projects.

To keep up the momentum and encourage students to continue to take up research projects this year as well, the Council shall be processing the **STSH 2022** scholarship now. STSH 2022 shall run in offline mode through email communications from the dedicated email id (stscrrh@gmail.com). The Council hereby announces STSH 2022 and calls for undergraduate students to register and submit their research proposals. Each student may register by filling the Google form (link provided below)
