Report - Health Check Up Camp of villagers

Day - Monday

Date - 27/01/2025

Place of Activity - Kolwadi, Ale

Teacher In-charge - Dr. Thorat Sandhya, HOD, department of Community Medicine and Dr. Soman Sushrut, HOD, Department Of Repertory.

Participants- Team of 44 students from final BHMS

With prior permission from Grampanchayat kolwadi, Ale, the department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted health check up camp of residents of Kolwadi, Ale.

The team members departed from college at 10.00 am and reached at Gram Panchayat located at Kolwadi, Ale. The team, started the activity of health check up. The medical student explored history about illnesses, conducted physical examination of the people. Final year students attending the camp under supervision and guidance of NSS Program Officer prescribed appropriate homoeopathic medicines for required villagers.

The team members lovingly and caringly advised the camp attendants to follow healthy life style that includes adequate diet, sleep, exposure to sunlight, etc. So as to promote their health. About 75 persons of various age group were examined and medicated by face to face communication.

This activity helped our students to explore and apply their clinical knowledge and helped to develop their psychomotor, cognitive and affective domain.

Report - Hb Screening of secondary school children.

Day - Friday

Date - 31/01/2025

Place of Activity - Kolwadi, Ale.

Teacher In-charge - Dr. Thorat Sandhya, HOD, department of Community Medicine and Dr. Soman Sushrut, HOD, Department Of Repertory.

Participants- Team of 46 students from final BHMS

With prior permission from Grampanchayat Kolwadi, Ale, the department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted Hb screening camp of secondary school children.

The team members departed from college at 10.00 am and reached at Kolwadi, Ale. The team, started the activity of Hb screening. The medical students enquired history and conducted clinical examination to detect anaemia. Then the high risk school children were screened for haemoglobin. Most of the students were found to be anaemic so the Final year students attending the camp prescribed appropriate homoeopathic medicines based on individualization for the required students.

The team members lovingly and caringly advised the camp attendants to follow healthy life style that includes adequate iron and vitamin rich diet, sleep, exposure to sunlight, etc. so as to promote their health. About 67 students were screened for Hb and treated.

This activity helped our students to explore and apply their clinical knowledge and helped to develop their psychomotor and cognitive domain.

Report – Nutritional Assessment of School Children

Day - Thursday

Date - 27/02/2025

Place of Activity - Z. P. School, Malwadi.

Teacher In-charge - Dr. Thorat Sandhya, HOD, department of Community Medicine

Participants - Team of 11 students from final BHMS .

With prior permission from Principal of Zillha Parishad School located at Malwadi, department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted nutritional assessment of school children of first to fourth standard on 27/02/2025

The team members departed from college at 10.30 am and reached at school at 11 am. The team started the activity of nutritional assessment. The medical students and interns conducted physical examination of students for detecting Flag sign, Pallor, Glossitis, Angular stomatitis, Bleeding gums, Enlarged thyroid gland, Koilonychia, Oedema, etc. They measured and recorded anthropometric measurements like height and weight of school children.

The team members lovingly and caringly educated the staff and students about different nutrients and inclusion of colourfull fruits and vegetables in their diet regularly. For this purpose they used creatively prepared "Poshan Thali" so as to have better impact on the school children.

This activity helped our students to explore and apply their clinical knowledge and helped to develop their psychomotor and cognitive domain.

Report – Gram Swacchata Abhiyan

Day- Thursday

Date - 27/02/2025

Place of Activity - Adopted Village - Malwadi

Teacher In-charge - Dr. Thorat Sandhya, HOD, department of Community Medicine

Participants -Team of 11 students from final BHMS

With prior permission from the Sarpanch of Bota and Medical Officer of Bota PHC, the department of Community Medicine organized and conducted "Gram Swacchata Abhiyan" at the adopted village, Malwadi. As gram swacchata is crucial aspect of rural development and Community Health, the department of Community Medicine has planned this activity in the adopted village.

The team members reached at 10 am at Malwadi, they approached to the principal of Z. P. School and cleaned the area of school. Then the team cleaned the area of Mahanubhav ashram. The team then moved to the common areas of the Malwadi for cleaning the varandas of the houses. Finally they cleaned the area around bus stand. The collected garbage was disposed of properly.

By prioritizing Gram Swacchata, we can create clean villages that can contribute to the development of good community health. With this aim our team conducted this activity. This activity helped our students to develop psychomotor and affective domain.

Snake Bites-Khanapur

Day – Friday

Date – 07/03/2025

Place of Activity – Shivneri School, Khanapur.

Teacher In-charge – Dr. Thorat Sandhya, HOD, Community Medicine

Participants – Team of 13 students from final BHMS, 2 Interns

As per the mail receives from the Principal of Shivneri school, department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted general health check up camp of school children of first to tenth standard on 07/03/2025

The team members departed from college at 10.30 am and reached at school at 11.15 am. The team started the activity of health awareness on “Snake Bites”, informing the school children about Do’s and Don’ts . The team members explained four important types of snakes found in India under the families Elapids and Viperids. They focused on dry bites and precautions to be taken while carrying patients of snake bite to the health center. They also informed about snake venoms.

This activity helped our students to explore and apply their knowledge for educating and creating awareness about snake bites and to develop their psychomotor domain, cognitive domain and affective domain as well.

Report – BSL Estimation Camp of Women Shubham Tarangam, Alephata

Day – Saturday

Date – 08/03/2025

Place of Activity – **Shubham Tarangam, Alephata**

Teacher In-charge – Dr. Thorat Sandhya, HOD, department of Community Medicine

Participants – Team of 06 students from final BHMS and 1 intern

On occasion of “International Women’s Day”, department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted BSL estimation camp of women at Shubham Tarangan on 08/03/2025.

The team members departed from college at 02.00 pm and on reaching the site, team started the activity of BSL estimation. India is facing significant health challenge of growing diabetic population. BSL estimation camps in smaller areas can help to address this issue. Based on this background we conducted BSL estimation camp. The women with elevated random sugar level were advised to do BSL fasting sugar or GTT and iHbA1C as well. Intern attending the camp prescribed appropriate homoeopathic medicines for required candidates. Total 38 women were beneficiaries of this camp.

This activity helped our students to explore and apply their clinical knowledge and helped to develop their psychomotor domain, cognitive domain and affective domain as well.

Subject -Conduction of Women's BSL Estimation camp ,Shubham tarangan-II , Alephata

Respected sir

I am Pleased to report that on Saturday 08/03/2025, "Women's BSL Check Up Camp "on occasion of International Women's Day , conducted at Shubham tarangan-II, Alephata. Department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and Hospital conducted this activity.

I am writing to express my sincere appreciation for organizing the Women's BSL Estimation camp.The camp provided a valuable opportunity for women to undergo essential for prediabetic and diabetic conditions .

The camp was well-organized, and the medical team was courteous, professional, and attentive to our needs. The BSL test was conducted efficiently, and the results were explained clearly to us.

We found the camp to be highly beneficial, as it helped me become aware of my current health status.

The camp also highlighted the importance of regular BSL Estimation especially for women, who often neglect their own health while caring for their families

Thank you for your dedication to promoting women's health and well-being.

Community Medicine

Participants – Team of 06 students from final BHMS and 1 intern

On occasion of “International Women’s Day”, department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted Hb estimation camp of women at Shubham Tarangan on 08/03/2025.

The team members departed from college at 02.00 pm and on reaching the site, team started the activity of haemoglobin estimation by sahil’s method. India is facing significant health challenge of reduced haemoglobin level in different populations which mainly includes women of reproductive and non reproductive age groups. Hb estimation camps in smaller areas can help to address the issue of anaemia. Based on this background we conducted Hb estimation camp. The women with reduced haemolobin level were prescribed appropriate homoeopathic medicines. Severe cases of anaemia were not found in this camp. Total 17 women were beneficiaries of this camp.

This activity helped our students to explore and apply their clinical knowledge and helped to develop their psychomotor domain, cognitive domain and affective domain as well.

Medicine**

Participants – Team of 15 students from final BHMS, 2 Interns

As per the mail receives from the Principal of Shivneri school, department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata conducted general health check up camp of school children of first to tenth standard on 17/04/2025

The team members departed from college at 09.30 am and reached at school at 10.30 am. The team started the activity of health check up. The medical student explored history about illnesses, conducted physical examination of students. Interns attending the camp prescribed appropriate homoeopathic medicines for required students. The team examined 144 students.

The team members lovingly and caringly advised school children to take proper precautions during this ongoing summer season as health promoting activity.

This activity helped our students to explore and apply their clinical knowledge and helped to develop their psychomotor domain, cognitive domain and affective domain as well.

Report – Health Awareness activity

CPR - Khanapur

Day - Thursday

Date - 17/04/2025

Place of Activity - Shivneri School, Khanapur.

Teacher In-charge - Dr. Thorat Sandhya, HOD, Community Medicine

Participants - Team of 15 students from final BHMS, 2 Interns

As per the telephonic conversation with the Principal of Shivneri School, department of Community Medicine of Anantrao Kanase Homoeopathic Medical College and hospital, Alephata, conducted "Health Awareness Activity" on "CPR" for the school children.

The team members departed from college at 9.30 am and reached at school at 10.30 am. The team initially conducted health check up activity and then started the activity of health awareness on "CPR - Cardio Pulmonary Resuscitation". The aim of this awareness activity was to aware and train the students in cardiac emergencies. For this activity the team used interpersonal method of communication and demonstrated the detailed steps of CPR. Even the team received feedback of this awareness activity conducted for the purpose of health education.

This activity helped our students to explore and apply their knowledge for educating and creating awareness about CPR and to develop their psychomotor domain, cognitive domain and affective domain as well.

Subject – Conduction of health awareness activity on awareness on Mosquito borne diseases

Respected Sir,

I am Pleased to report that on Friday 27/06/25 , a field activity on " Awareness about mosquito borne diseases conducted at Shiv Chhatrapati madhyamik vidyalay alephata , Department of community medicine and National Service Scheme unit of Anantrao kanase Homeopathic Medical college and hospital located at Alephata conducted this activity . Final year BHMS students and volunteers of NSS unit actively participated . They informed our students about different species of mosquitoes emphasizing on malaria and dengue . They made an impact about how awareness prevents mosquito breeding in their areas . As this month is observed as Anti – Malarial month , so thus this makes it very crucial task about preventing and being safe from these diseases. The activity was conducted under HOD of department of Community medicine and Programme Officer of NSS unit

I give best wishes to the team members and college.

I hope such health awareness activities will be conducted in future as well.
